

## Composite Center Drain (-1) Shower Pans

### Single threshold, three wall models

Single threshold center drain shower pans have a 1" flange on three sides for *AmeriWall* 3 wall shower enclosure applications and come with a self-caulking wedge-lock drain and strainer. The white color of the pans is a very close match to *AmeriWall*. The pans are molded from a single piece of durable, stain and fungus resistant composite material and feature a non-slip surface that doesn't interfere with the flow of water.

**Note:** Final height and width dimensions of the delivered product shall be within reasonable tolerances of the quoted height and width dimensions.
